- Protect confidential, personal, and security-sensitive information.
- Disclose conflicts and material connections before they distort a decision or public message.
- Use ORS marks and relationships accurately; never sell borrowed trust.
- Raise concerns early, preserve evidence, cooperate fairly, correct substantiated harm, and do not retaliate.
- Respect land, access, local rules, recipient dignity, and the practical consequences of public storytelling.

DOCUMENT 41

Conflicts of Interest Policy

Purpose	Status	Classification
Identify divided loyalties and manage them transparently.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY A conflict is managed according to risk, not concealed because the people involved like and trust one another.

Requirements

- Disclose financial, family, employment, ownership, referral, investment, gift, supplier, customer, litigation, and close personal relationships relevant to a decision.
- Update disclosures when circumstances change and at least annually for decision-makers.
- The compliance lead records the disclosure and determines recusal, information barriers, independent review, conditions, or no action.
- A conflicted person may provide factual information but may not influence or vote on the outcome unless the written management plan permits a limited role.
- Failure to disclose is evaluated separately from the underlying relationship.

Procedure

1. Submit the conflict to the compliance contact before participating.
2. Record the relevant interest, decision, people affected, and urgency.
3. Assign an unconflicted reviewer and protective measures.
4. Document the decision and revisit it if facts change.

DOCUMENT 42

Gift, Sponsorship, and Anti-Pay-to-Play Policy

Purpose	Status	Classification
Ensure money and perks cannot purchase trust or hidden influence.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY No gift, sponsorship, donation, discount, travel benefit, inventory allocation, advertising purchase, or service contract may buy admission, renewal, standards influence, preferred status, favorable review, silence, or immunity from investigation.

Requirements

- Decision-makers may not solicit personal benefits from applicants, members, or vendors.
- Nominal hospitality and practical event items may be accepted when lawful, infrequent, transparent, and unlikely to influence judgment; ORS will set a dollar threshold annually.
- Travel, lodging, equipment, substantial discounts, paid media, and personal gifts require advance disclosure and written approval or refusal.
- Sponsorship benefits are written, priced, and separated from membership eligibility.
- Restricted funds require a written purpose and may be refused if the restriction distorts mission, fairness, safety, truth, or independence.
- Public recognition accurately identifies the relationship and any material connection.

DOCUMENT 43

Antitrust and Fair-Competition Policy

Purpose	Status	Classification
Keep collaboration useful, lawful, and procompetitive.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY ORS exists to help independents compete more effectively, not to reduce independent competition among them.

Requirements

- Never agree or seek agreement on current or future selling prices, discounts, margins, fees, surcharges, credit terms, wages, benefits, hiring, output, capacity, bids, customers, territories, or market allocation.
- Never coordinate refusals to deal, supplier punishment, customer boycotts, exclusion of competitors, or pressure for uniform terms.
- Do not share nonpublic competitively sensitive information outside an approved, counsel-reviewed process.
- Membership criteria must serve legitimate mission purposes and may not be manipulated to suppress competition or protect incumbents.
- Standards development must be transparent, relevant, technically grounded, and open to appropriate alternatives; it may not be used to block products or firms unfairly.
- Joint purchasing, distribution, freight, inventory exchange, insurance, and benchmarking require written program rules and antitrust counsel review before launch.
- Every participant has stop-discussion authority and a duty to object and leave if prohibited discussion continues.

Competitor Meeting Protocol

Purpose	Status	Classification
Control agendas, attendance, minutes, and prohibited topics in meetings involving competitors.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY Every ORS meeting involving actual or potential competitors must have a legitimate purpose, a circulated agenda, and a person responsible for competition compliance.

Requirements

- Circulate the agenda and materials in advance; remove vague agenda items such as market conditions if they invite sensitive discussion.
- Begin with the antitrust reminder and record attendance.
- Discuss only agenda topics and legitimate collaborative purposes.
- Do not permit side conversations, chat threads, shared documents, or social gatherings to become channels for prohibited coordination.
- Record decisions and objections in concise minutes without unnecessary competitive detail.
- If a prohibited topic arises: object, stop it, record the objection, leave if necessary, and report promptly.

Procedure

1. Meeting owner submits agenda for review when competitors will attend.
2. Compliance lead identifies sensitive topics and whether counsel should attend.
3. Chair reads the reminder and follows the approved agenda.
4. Recorder issues draft minutes within [five] business days.
5. Compliance lead retains the approved agenda, attendance, materials, and minutes.

DOCUMENT 45

Sensitive Information and Benchmarking Protocol

Purpose	Status	Classification
Allow learning without exposing member strategy or enabling coordination.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY ORS will collect or report competitively sensitive information only when the purpose is legitimate, safeguards are documented, and qualified antitrust counsel approves the design.

Requirements

- Prefer public, noncompetitive, operational, safety, quality, warranty, or historical information that cannot reveal an individual participant's strategy.
- Use an independent administrator where practical; limit raw-data access and prohibit member access to another participant's submissions.
- Aggregate results across enough genuinely independent contributors to prevent identification or inference.
- Use aged data and broad categories when sensitivity warrants; suppress small cells and outliers.
- Do not collect future pricing, planned wages, customer-specific terms, bids, planned output, planned capacity, or market allocation.
- Document purpose, fields, retention, recipients, suppression rules, counsel approval, and disposal before collection begins.
- Participation is voluntary unless a lawful, necessary membership requirement is separately approved; members remain free to act independently.

DOCUMENT 46

Purchasing Collaboration Safeguards

Purpose	Status	Classification
Prepare for lawful shared purchasing without recreating consolidation.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY No ORS purchasing program launches until business feasibility, supplier effects, data protection, and current antitrust law have been reviewed in writing by qualified counsel.

Requirements

- Participation is voluntary and members may purchase outside the program.
- Members independently determine resale prices, customers, inventory, and downstream terms.
- ORS will not coordinate a boycott or punish suppliers for serving nonmembers.
- Supplier selection uses disclosed criteria; money alone does not buy preferred status or exclusivity.
- Programs must avoid excessive dependence on one supplier or excessive leverage that makes small suppliers economically nonviable.
- Purchasing data is collected only to administer the program and may not be used to acquire, disintermediate, or compete against members.
- Contracts allocate warranty, recall, title, freight, tax, insurance, product liability, data, and termination responsibilities.
- Market concentration, purchasing shares, supplier shares, and program effects are reviewed periodically under current law rather than obsolete safe-harbor assumptions.

DOCUMENT 47

Environmental Claims and Anti-Greenwashing Standard

Purpose	Status	Classification
Require evidence behind environmental language.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY Trees in the marketing do not count. Receipts do.

Requirements

- Environmental claims must be truthful, specific, appropriately qualified, and supported by competent and reliable evidence before publication.
- Avoid broad unqualified claims such as green, eco-friendly, sustainable, planet-safe, or zero impact when the claim cannot be substantiated across the relevant life cycle.
- State what changed, compared with what baseline, during what period, for which product or operation, using what method, and with what limitations.
- Distinguish reduced impact from no impact; recyclable from actually recycled; designed for repair from meaningfully repairable in practice.
- Disclose material boundaries, offsets, geographic assumptions, collection availability, certifications, and conflicts.
- Keep substantiation files, calculations, supplier evidence, certifications, and approvals for the required retention period.
- Correct or withdraw claims when evidence changes, a certification lapses, or reasonable interpretation becomes misleading.

Truthful Marketing and Public Claims Policy

Purpose	Status	Classification
Protect members, audiences, and ORS credibility from exaggeration and concealed influence.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY Every objective claim requires evidence; every endorsement must reflect honest experience; every material connection must be disclosed clearly.

Requirements

- Identify whether a statement is fact, estimate, opinion, aspiration, comparison, testimonial, or paid endorsement.
- Substantiate measurable performance, safety, durability, origin, warranty, savings, environmental, employment, donation, and impact claims before use.
- Do not fabricate scarcity, reviews, testimonials, independence, charitable impact, or member status.
- Do not suppress or condition benefits on removal of honest negative reviews.
- Use Made in USA, local, veteran-owned, family-owned, founder-led, employee-owned, certified, and similar claims only when accurate under applicable standards.
- Disclose paid, gifted, discounted, affiliate, employment, ownership, family, and other material connections with the claim.

Investigate credible concerns fairly and protect the network proportionately.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY ORS separates allegation from evidence, urgency from spectacle, and accountability from public shaming.

Requirements

- Triage concerns for safety, legal, privacy, evidence-preservation, retaliation, and immediate mission risk.
- Assign reviewers without material conflicts and define scope in writing.
- Collect proportionate evidence, maintain a source and chronology record, and distinguish fact, inference, opinion, and unresolved conflict.
- Give the subject a meaningful opportunity to respond unless temporary delay is necessary for safety, law, or evidence protection.

- Select remedies based on severity, intent, pattern, impact, correction, recurrence risk, candor, and mission fit.
- Protect confidentiality without promising secrecy ORS cannot lawfully or safely maintain.

Procedure

1. Receive and acknowledge the concern.
2. Apply immediate protective measures if required.
3. Create scope, reviewer, conflict, evidence, and communication plan.
4. Interview and collect records fairly.

7. Issue notice, appeal rights, remediation, and record-retention instructions.

DOCUMENT 51

Whistleblower and Non-Retaliation Policy

Purpose	Status	Classification
Protect good-faith reporting and participation in review.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY ORS prohibits retaliation against a person who raises a good-faith concern, refuses unlawful or unsafe conduct, preserves evidence, requests accommodation, or participates honestly in a review.

Requirements

- Retaliation includes firing, demotion, threats, exclusion, blacklisting, contract punishment, doxxing, intimidation, harassment, adverse referral conduct, and misuse of confidential information.
- Knowingly false statements and evidence fabrication are misconduct; an unsubstantiated good-faith concern is not.
- Managers and members must report suspected retaliation promptly and preserve relevant records.
- Protective measures may include changed contacts, access restrictions, confidentiality limits, schedule changes, independent review, or emergency separation.
- Retaliation is reviewed as a separate violation and may justify stronger remedies than the original concern.

DOCUMENT 52

Data Privacy and Information Security Policy

Purpose	Status	Classification
Collect less, protect it well, and prevent member data from becoming a weapon.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

- Do not sell personal data or use member data for undisclosed targeted advertising, acquisition, disintermediation, or competitive advantage.
- Obtain meaningful consent for sensitive stories, media, minors, precise locations, health information, and beneficiary data.
- Vet vendors, use written data terms, limit onward use, and plan for return or deletion.

DOCUMENT 53

Records Retention and Destruction Policy

Purpose	Status	Classification
Keep what the mission and law require, then destroy it safely.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

POLICY Records are retained by category, legal need, operational value, and sensitivity - not forever by accident.

Requirements

- Permanent: foundational charter history, entity records, adopted governance decisions, intellectual-property registrations, and final annual reports.
- Seven years after end: signed commercial agreements, financial records, restricted-fund records, material project files, and tax-supporting documentation, subject to professional advice.
- Seven years after closure: final investigation findings and serious safety or compliance matters, unless law, litigation hold, insurance, or risk requires longer.
- Three years after end: routine applications not admitted, ordinary meeting files, and expired marketing approvals, unless a shorter privacy period applies.
- Operational duration plus one year: routine portal logs and nonessential working files, unless security needs justify another period.
- Never destroy records subject to a legal hold, audit, claim, investigation, or reasonably anticipated dispute.
- Use secure deletion, shredding, vendor confirmation, and access-log updates appropriate to the medium.

DOCUMENT 54

Purpose	Status	Classification
Put life, sound command, and honest learning ahead of schedule or footage.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal policy; member-facing summary as appropriate

Requirements

- Designate an activity lead, safety lead, communications plan, scope, weather and terrain assessment, qualified operators, and emergency route before field work.
- Use task-appropriate training, protective equipment, equipment inspections, recovery zones, bystander control, and manufacturer limits.
- Do not self-deploy into disasters or restricted incidents without lawful coordination and an accepted mission.
- Report injury, near miss, property damage, environmental impact, missing person, equipment failure, security issue, or public-authority contact immediately.
- Preserve life first, then stabilize the scene, notify emergency services and insurers as required, protect evidence, and control inaccurate public statements.
- Conduct a blame-aware but learning-centered after-action review and track corrective actions to closure.
- ORS does not represent itself as a public emergency service and does not guarantee response capability or timing.

DOCUMENT 55

- Threats, dehumanization, political violence, corruption, extortion, discrimination, and retaliation remain conduct issues regardless of faction.
- ORS resources, member lists, marks, and events may not be used for unauthorized campaign activity or pressure.

Requirements

- Separate membership fees, XGL service revenue, sponsorship, restricted aid, pass-through project funds, donated goods, and any future cooperative capital in the books.
- Use written budgets, delegated authority limits, dual approval above [THRESHOLD], bank reconciliation, supporting documentation, and periodic internal review.
