LEGAL STATUS These are business-ready working drafts, not a substitute for advice from Oregon counsel, tax counsel, antitrust counsel, insurance professionals, or other licensed specialists. Bracketed terms require a deliberate business decision before execution.

DEFINED SHORTHAND Within this package, ORS means One Rising Sun. References to Oregon statutes are written out as Oregon Revised Statutes to avoid confusion.

Membership Prospectus

Purpose	Status	Classification
Explain the value and meaning of ORS membership in public-facing language.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Public

THE PROMISE Keep your company. Keep your name. Keep your employees. Keep your judgment. Gain trusted relationships, useful capability, and the leverage of connection.

What One Rising Sun is

One Rising Sun is a selective alliance for independent and human-scale participants in the overland, expedition, off-road, outdoor, fabrication, recovery, repair, manufacturing, retail, logistics, education, and adjacent communities. Members are chosen for fit, not merely for reach or purchasing power.

What makes membership valuable

- Trust: membership signals that ORS has examined ownership, conduct, capability, and accountability.
- Connection: members gain a relationship network built for cooperation, referrals, learning, and problem-solving.
- Capability: members may offer and access equipment, expertise, logistics, mentoring, facilities, and emergency support.
- Visibility: ORS tells credible stories about good work with member consent and truthful disclosure.
- Development: education and peer knowledge help independent companies become stronger without becoming corporate beige.
- Future leverage: members may help design lawful shared purchasing, distribution, freight, insurance, technology, and cooperative services.
- Belonging: ORS is meant to feel like a trusted working community, not a directory assembled by invoice.

What membership is not

Membership is not a guarantee of sales, referrals, contracts, publicity, funding, rescue services, emergency response, product approval, or moral perfection. It does not create a partnership, franchise, joint venture, employment relationship, agency, equity interest, or authority to speak for another member.

How companies qualify

ORS examines ultimate ownership, independence, leadership accountability, employee and customer treatment, product or service quality, warranty and repair behavior, environmental claims, community conduct, legal and safety history, and effects on the independent ecosystem. Scale is contextual, but conglomerate control and ecosystem-flattening market power may be structural disqualifiers even where individual employees are admirable.

DOCUMENT 10

Eligibility and Exclusion Standards

Purpose	Status	Classification
Apply a fair, evidence-based threshold for admission and renewal.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Public summary; detailed scoring internal

Minimum eligibility

- A lawful, verifiable person or organization with a material connection to the ORS ecosystem.
- Ultimate ownership and control disclosed to ORS.
- Demonstrated competence or a credible developmental path toward it.
- Leadership capable of receiving criticism, correcting mistakes, and honoring commitments.
- Conduct materially consistent with the Charter and Code of Conduct.
- Willingness to complete diligence, training, renewal, and material-change disclosure.
- No expectation that payment, fame, friendship, or purchasing volume overrides the standards.

Presumptive structural exclusions

- Control by a conglomerate, dominant consolidator, or acquisition platform whose scale or structure conflicts with ORS's independence purpose.
- Private-equity or equivalent control that materially separates operating judgment from accountable human ownership, absent extraordinary evidence of protected autonomy.
- Business models materially dependent on absorbing, disintermediating, coercing, or homogenizing independent operators.
- Undisclosed beneficial ownership, control rights, or acquisition arrangements.
- Inability to identify a person with authority and responsibility for the relationship.

Conduct exclusions

- Material fraud, deceptive marketing, bribery, retaliation, exploitation, harassment, discrimination, violence, or knowing legal violations relevant to the relationship.
- Repeated unsafe conduct or product failures without responsible correction.
- Manufactured reviews, concealed sponsorships, unsupported environmental claims, or systematic warranty obstruction.

- Use of customer, dealer, creator, employee, or member data to manipulate, punish, or unfairly displace participants.
- Refusal to cooperate with reasonable ORS review or material misrepresentation during diligence.

Evidence and proportionality

ORS considers credible sources, context, recency, severity, patterns, leadership response, restitution, corrective action, and current risk. Allegations are not treated as findings. A candidate receives a fair opportunity to respond to material adverse information unless doing so would endanger a person, compromise a lawful investigation, or expose protected sources.

Authorization

The applicant authorizes ORS and its designated professional advisers to verify information reasonably relevant to eligibility, renewal, safety, reputation, ownership, and legal risk through lawful public records, references identified by the applicant, and information voluntarily supplied by the applicant. ORS will not obtain a consumer report or conduct a regulated employment background check under this authorization unless a separate legally compliant authorization is executed.

ORS commitments

- Collect only information reasonably related to the decision.
- Separate verified facts, credible allegations, opinion, and unresolved questions.
- Limit access to people with a legitimate review role.

Conditional Admission and Developmental Pathway

Purpose	Status	Classification
Help promising candidates become ready without diluting the standard.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal / controlled distribution

When conditional admission is appropriate

Conditional admission may address remediable gaps in documentation, customer support, warranty systems, training, data handling, environmental substantiation, governance, safety practice, or ownership transparency. It is inappropriate where the concern is intentional dishonesty, retaliation, active danger, structural incompatibility, or refusal to engage.

Condition	Evidence of completion	Support offered	Deadline
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

Terms

- The written decision identifies the gap, evidence, required outcome, deadline, available support, benefits permitted, and representation limits.
- The usual provisional term is [six] months unless complexity justifies another period.
- A provisional participant may not imply full membership or use full-member marks.
- Completion results in documented review; it does not guarantee admission if new material information arises.
- ORS may extend a deadline for good cause or end the pathway if progress is absent or risk increases.

DOCUMENT 19

Membership Decision, Reconsideration, and Appeal Policy

Purpose	Status	Classification
Provide selective membership with fair, disciplined process.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Internal / controlled distribution

Initial decision

1. The review team prepares a written recommendation using the approved standard.
2. Conflicted reviewers disclose and recuse.
3. The decision states admission, conditional admission, deferral, or denial and identifies the principal reasons at a useful level of specificity.
4. Sensitive sources, privileged advice, trade secrets, and information posing safety risks may be summarized rather than disclosed.

Reconsideration

An applicant may request reconsideration within [30] days based on a material factual error, important evidence unavailable during review, or a meaningful change in circumstances. Disagreement alone is not new evidence.

Appeal

A member facing suspension or termination may appeal within [15] days unless immediate safety, legal, or mission protection requires temporary restrictions. The appeals panel will be independent of the original decision, permit a written response, and issue a reasoned decision. The panel reviews fairness, evidence, proportionality, conflicts, and consistency; it does not substitute popularity for judgment.

DOCUMENT 20

Annual Renewal and Material-Change Certification

Purpose	Status	Classification
Keep membership accurate after admission.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Confidential renewal form

Member legal name: _____ Renewal year: _____

Annual certification

- [ ] Ownership and control information is unchanged, except as attached.
- [ ] No undisclosed acquisition, investment, parent-company, management-services, or controlling debt arrangement exists.
- [ ] Required training is current.

Immediate-change duty

Acquisition or change of Control triggers automatic membership review; it does not automatically condemn the people or work of the acquired company.

Authorized signature: _____ Title: _____ Date: _____

DOCUMENT 21

Member Handbook

Purpose	Status	Classification
Give members one practical field guide to the full system.	WORKING DRAFT - ATTORNEY REVIEW REQUIRED BEFORE EXECUTION	Member-facing

Welcome

You were not admitted because ORS expects perfection. You were admitted because the evidence supports trust, capability, independence, and a willingness to repair what goes wrong. Membership asks you to help make the ecosystem stronger than any participant could make it alone.

The five rules worth remembering

1. Tell the truth, especially when it is inconvenient.
2. Keep competitive decisions independent.
3. Protect information entrusted to you.
4. Use the name accurately; membership is not universal product certification.
5. When something goes wrong, tell the right people early and help repair it.

How to use the network

- Ask for an introduction with a clear purpose and permission to share your information.
- Offer capabilities honestly, including constraints, geography, timing, and cost.
- Use project-specific agreements when money, equipment, risk, publicity, or deliverables are involved.
- Treat referrals as trust transferred on loan; communicate promptly and never assume exclusivity.
- Share lessons and noncompetitive practices freely; route sensitive benchmarking through the approved protocol.

Stop-the-conversation rule

IF A COMPETITIVE DISCUSSION GOES SIDEWAYS Say that ORS policy prohibits the topic, stop the discussion, ensure the objection is recorded, leave if it continues, and notify the compliance contact. Do not sit politely through a felony because the coffee is good.

Public representation

Use only current marks and approved descriptions. Disclose material connections when talking about products, services, or partners. Do not imply ORS endorses every product, employee, claim, or affiliate. Obtain consent before telling another person's hardship, project, or contribution story.

When to contact ORS

- Ownership or control changes
- Safety events or serious complaints
- Possible conflicts
- Questionable competitive discussions
- Lost or exposed information
- Media inquiries involving ORS
- A member or community need
- A mistake you want help correcting
